

A message from the heart.

My dearest...

I know you don't want to hear this, but we need to talk. I've grown quite attached to you, and I'd like us to stay together for as long as possible. But lately you've been putting me under too much strain, and I can't take it anymore. What with the obesity, high blood pressure, cholesterol and blood sugar I'm liable to contract Metabolic Syndrome and have an attack at any time.

So I'm sorry to say it, but you're going to have to start making some changes like exercising and eating a balanced diet. You should also use Cardiozen, a natural daily supplement with EPA-rich Omega-3 fatty acids that could reduce my chances of having an attack or a stroke. So stop risking all that we have and taking better care of me. Because if you don't, this relationship could be the end of both of us.

Cardiozen
Super Concentrated
Fish Oil with Co-e

Keep your most vital mu
